

FAHAD MEHMOOD

Software Engineering Student | Web Developer | Python Developer

Lahore, Pakistan | 03158288557 | fahadmehmood8221@gmail.com | linkedin.com/in/fahad-mehmood-687421388 | github.com/Fahad-Mehmood-Tech

PROFESSIONAL SUMMARY

Motivated Software Engineering student with hands-on experience in full-stack web development using React.js, Node.js, Express.js, FastAPI, MySQL, and MongoDB. Proficient in Python and JavaScript with a strong understanding of REST API design, database integration, and component-based frontend architecture. Passionate about building real-world software solutions and continuously expanding knowledge toward Artificial Intelligence and Machine Learning.

PROJECTS

LegalEase — Lawyer Appointment & Legal Consultation Platform

React.js, JavaScript, Tailwind CSS, React Router DOM

- Built a fully responsive web platform connecting users with legal professionals and enabling online appointment scheduling.
- Designed and implemented 4+ pages including lawyer listings, lawyer profiles, appointment booking, login/register, About Us, and Contact.
- Developed reusable React components with clean component-based architecture and client-side routing via React Router DOM.
- Managed structured application data using JSON datasets; focused on accessibility, usability, and responsive design across all screen sizes.

Expense Tracker Web Application

Python, FastAPI, MySQL, SQLAlchemy ORM, HTML, CSS, JavaScript, Jinja2

- Developed a full-stack expense tracking application with complete CRUD functionality for managing and monitoring financial records.
- Designed and integrated a MySQL relational database using SQLAlchemy ORM; built backend REST APIs with FastAPI for data processing.
- Integrated Jinja2 templates for server-side rendering, connecting frontend forms directly to backend business logic.
- Implemented form validation, database connectivity, and server-side error handling throughout the application.

Portfolio Website — Client Project

HTML, CSS, JavaScript

- Designed and delivered a fully responsive, professionally styled portfolio website for a client from scratch.
- Translated client requirements into a modern UI with cross-device compatibility (mobile, tablet, desktop).
- Optimized loading performance and ensured clean, maintainable code structure; successfully improved client's online presence.

Watch Tracking Application

Figma

- Built an application to store, update, retrieve, and manage watch-related records with structured data handling.
- Demonstrated problem-solving skills and structured programming principles including data management and user interaction design.

SEO Keyword Finder Tool

Python

- Developed a keyword research tool generating location-based keyword suggestions for local businesses.

- Applied keyword analysis and search intent concepts to improve understanding of website visibility and digital marketing fundamentals.

WORK EXPERIENCE

Freelance Web Developer

2025 — Present

Self-employed — Remote

- Delivered a complete responsive portfolio website for a client using HTML, CSS, and JavaScript.
- Built and improved frontend interfaces, implementing responsive layouts and UI enhancements based on client feedback.
- Performed testing, debugging, and performance optimization to meet project requirements.
- Applied basic on-page SEO and website optimization practices to improve search visibility.

EDUCATION

Bachelor of Science in Software Engineering

2023 — 2027 (Expected)

University of Lahore — 3rd Year (In Progress)

Intermediate in Computer Science (FSc)

2021 — 2023

Apex Boys College, Nowshera Virkan

Matriculation in Science (SSC)

2021

GOVT Higher Secondary School, Karyal Kalan

TECHNICAL SKILLS

Programming Languages:

Python, JavaScript, C++, Java, HTML5, CSS3

Frontend Technologies:

React.js, Tailwind CSS, Responsive Web Design, Figma

Backend Technologies:

FastAPI, Node.js, Express.js, REST APIs, SQLAlchemy ORM

Databases:

MySQL, MongoDB

Tools & Platforms:

Git, GitHub, VS Code, Ubuntu, UPPAAL

Web & SEO Knowledge:

Search Engine Optimization (SEO), Keyword Research, On-Page SEO

SOFT SKILLS

Team Leadership, Communication, Problem Solving, Time Management, Adaptability, Collaboration

LANGUAGES

English — Professional Working Proficiency

Urdu — Native

CAREER INTERESTS

Python Development, Backend Development, Web Development, Software Development, Artificial Intelligence & Machine Learning
