

FAHAD MEHMOOD

SOFTWARE ENGINEERING STUDENT | WEB DEVELOPER & SEO SPECIALIST

Lahore, Pakistan | 03158288557 | fahadmehmood8221@gmail.com | <https://www.linkedin.com/in/fahad-mehmood-687421388/>

PROFESSIONAL SUMMARY

Motivated Software Engineering student with hands-on experience in web development and SEO. Skilled in building responsive web applications and developing SEO tools to improve search visibility. Actively seeking opportunities in web development and SEO, while continuously expanding knowledge in AI and machine learning.

PROJECTS

Expense Tracker Web Application

- Developed a full-stack web application using **React.js** (frontend) and **Node.js** (backend)
 - Designed an interactive user interface for tracking daily income and expenses
 - Implemented dynamic state management to update financial data in real time
 - Structured backend logic to handle user inputs and data processing efficiently
 - Focused on usability, clean UI design, and responsive layout
-

Portfolio Website (Client Project)

- Designed and developed a **fully responsive portfolio website** using **HTML, CSS, and JavaScript**
 - Translated client requirements into a modern, visually appealing UI
 - Ensured cross-device compatibility (mobile, tablet, desktop)
 - Optimized website performance and loading speed
 - Delivered a clean and professional product, improving the client's online presence
-

Local SEO Keyword Finder Tool

- Built a custom **SEO tool** to generate **low-competition, location-based keywords**
 - Developed logic to analyze search patterns and produce keyword variations like: *"plumber in Lahore", "best dentist near me"*
 - Focused on helping local businesses improve **search engine rankings and visibility**
 - Demonstrates strong understanding of **keyword research, search intent, and SEO strategy**
 - Showcases ability to combine **programming with digital marketing solutions**
-

Watch Tracking Application

- Developed an application to **track and manage watch-related data**
- Implemented core logic for storing, updating, and retrieving records
- Focused on improving user interaction and data handling efficiency
- Demonstrates problem-solving skills and structured programming approach

WORK EXPERIENCE

- Collaborated with a group of developers on various web development projects
- Contributed to building responsive websites using HTML, CSS, and JavaScript
- Assisted in implementing frontend features and improving user interface design
- Applied SEO techniques including keyword optimization and on-page SEO improvements
- Participated in debugging, testing, and improving overall website performance
